CSWC Operational Period Summary

1800 May 29 2018 to 0600 May 30 2018

Tahoe National Forest is seeking volunteers to help restore Grouse Ridge Lookout in Nevada City, Nevada County. It is the oldest lookout in California. Built in 1923, this fire lookout was in use for five decades until being retired in the 1970's.

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) are scaling up their response to this incident, as more cases have been detected.
- CDFA confirmed that there are no commercial premises currently involved.
- CDFA confirmed that there is no public health risk due to this virus.
- Cal OES Southern Region continues to assist CDFA in identifying a facility in the immediate area of the CDFA district office in Ontario, San Bernardino County, to expand operations as the current Incident Command Post (ICP) is too small for the current number of responders and supplies.
 - CDFA expressed interest in some facilities on a list the Cal OES Southern Region Agency Representative (AREP) obtained from San Bernardino County Real Estate Services. Appointments to inspect the facilities were scheduled on 05/29/18.
 - An inquiry with the California Department of General Services (DGS) to locate available facilities in the area was made on 05/29/18.

Activations

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will continue to monitor the incident.

Deployment

- One (1) Cal OES Science and Technology Advisor deployed on 05/29/18 until 06/01/18 to the CDFA/USDA ICP as a Biosecurity Infectious Disease Subject Matter Expert with an operational period of 0700-1900 hours.
- One (1) Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) deployed to the CDFA/USDA ICP as an AREP with an operational period of 0700-1900 hours.
- One (1) Cal OES Logistics Section Chief deployed to the CDFA/USDA ICP with an operational period of 0700-1900 hours.

WEATHER OF CONCERN

Weather of Concern

- A Red Flag Warning is in effect for portions of southeastern California from 1100 hours Wednesday through 1900 hours Thursday. Dry conditions combined with gusty south to southwest winds and low humidity will create conditions favorable for rapid fire spread.

WEATHER SYNOPSIS BY REGION

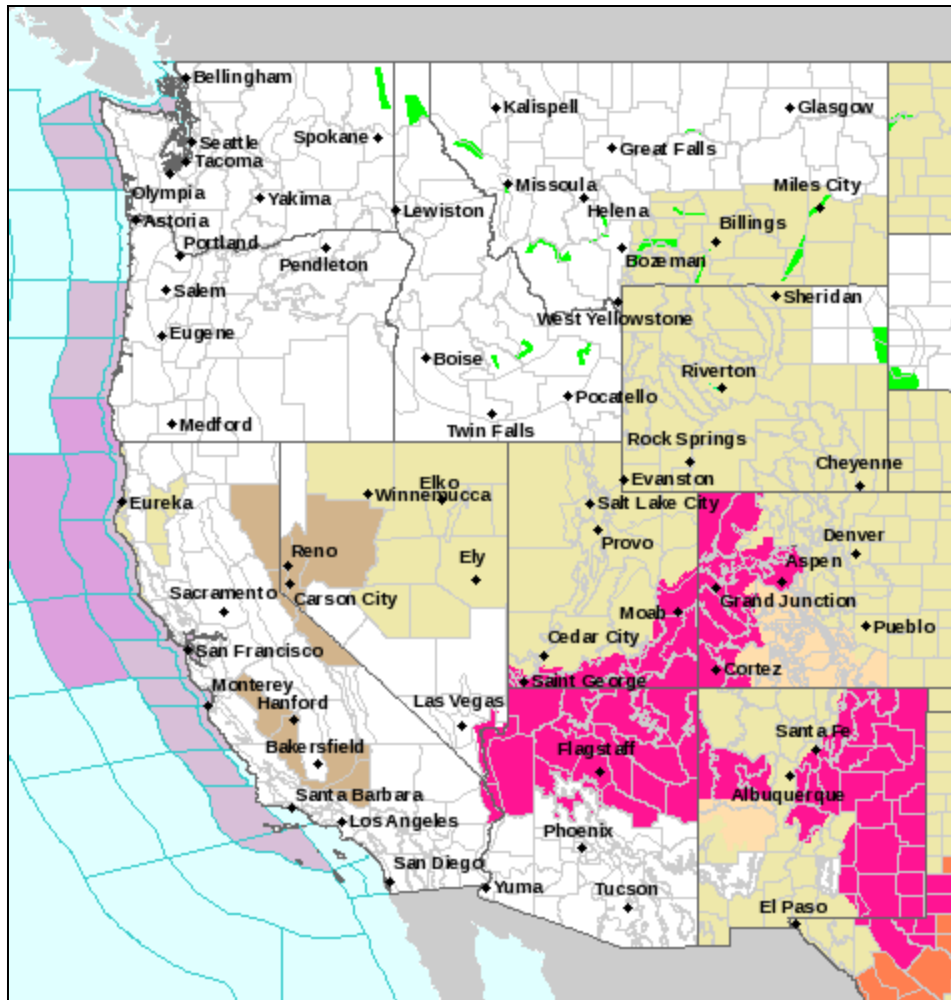

NORTHERN CALIFORNIA

A weather system will be moving into the region Wednesday and Thursday with much cooler conditions and higher relative humidity (RH). A few afternoon showers or isolated thunderstorms may develop over our eastern mountains today with more possible across the northern and eastern mountains Wednesday and Thursday afternoons. High pressure returns for the weekend with drier, warmer conditions again into early next week. Afternoon high temperatures Thursday will be about 20 degrees cooler with the warmest inland areas in the low and mid 70s. Warming over the weekend will return conditions to near normal with the mid and upper 80s in the warmest locations. Areas of gusty afternoon SW to W winds will develop daily with peak gusts of 20-30 mph, mainly of the coastal counties and through the Delta, but they will be quite widespread across the region Wednesday afternoon as well.

SOUTHERN CALIFORNIA

Later this week, a trough will develop across the area, leading to stronger onshore flow and cooler temperatures. West winds of 20-30 mph will be commonplace in and near the desert Wednesday which will probably increase to the 30-40 mph range Thursday. Southwesterly flow should bring an end to any convection by Thursday. Temperatures will fall 8-12 degrees with highs back in the 80s in the valleys for the second half of the week. Winds should become light by Friday. This weekend, a weak ridge will bring warmer temperatures and less marine layer stratus. Highs will climb back into the upper 80s in the valleys and upper 90s in the San Joaquin Valley. Some low desert locations may break 110 for the first time this season on Saturday. Slightly cooler weather will return next Monday along with isolated thunderstorms in the Sierras.
